2020 -2021

VISION

To help the not-so-young students realize the writing skills within themselves and to make them encounter literature. We intend to provide the best of write-ups all the way from raw yet intellectual minds.

MISSION

Our mission as a student magazine is to ensure the real matter, the news, the write- ups and much more, all coming from the general interest within youngsters, who all, may, in the future, develop potential writing skills.

MESSAGE FROM THE DIRECTOR ITM

I am pleased to learn about the forth coming issue of the College magazine, Ojas 2020-21. The institute has progressed at an exponential rate since its inception in 1997. Many notable achievements have been recorded since then. This college magazine will help to showcase the activities that are happening on the campus. It also helps in building up team work which is very much needed today in their era of cut-throat competition. Since proper communication plays a vital role in an institution's development, this magazine will serve to reinforce and allow increased awareness, improved interaction, and integration among all of us. The plethora of interesting and exciting opportunities available to youngsters today often leaves them with an array of things to do. It is therefore important to help them build their focus on the subject that drains them most and gives shape to their vision. With these words, I appreciate the entire team of Ojas for their sincere efforts in bringing out this edition of Ojas magazine.

A handwritten signature in blue ink, appearing to read "MeBaie".

Director
ITM

MESSAGE FROM THE DESK OF EDITOR-IN-CHIEF

This year I had the honour and privilege of being the editor in chief of Ojas, the yearly magazine of the Institute of Technology and Management. I am very pleased to write a message as the editor in chief of ojas but message is like a vessel which endows with information. Writing about ITM does not require any introduction. ITM has retained its pioneer position not only in academics but in various fields.

Putting a magazine was a challenge yet Ojas is delighted to bring out the achievements, accomplishments of various departments, literary skills of students in a compiled format, under the Umbrella of ITM. This magazine gives a platform to our students for exhibiting their literary skills. We also develop and cultivate in students, the literary taste and study habits.

I, along with my team have spent hours to make this magazine standout. I owe a heartfelt thanks to all the contributors to ojas. In this pursuit I extend my immense gratitude to the dedicated team of ojas. Last but not the least I would like to express my heartfelt thanks to the ITM Management for their continuous guidance and motivation.

A handwritten signature in blue ink, appearing to read "Megha Lahane".

**Mrs. Megha Lahane
Editor-in –Chief
Ojas, ITM**

Impressions

We the students of ITM present to you the student's magazine 'Ojas', which is more than just a magazine, it's a pile of wandering thoughts and creative imaginations, informative data of the students brought up together. The idea was to push the students to tease their minds and come up with mind boggling answers to questions never asked. As the student editor I feel immense pleasure bringing this to you. As every information in it is the creamy layer of all those hundreds of contexts. I congratulate the whole team of 'Ojas' for their hardwork and making things happen.

Role of LMS During Online Education System

Vinayak Sharma
CE, VI Sem, ITM

Learning Management System, LMS is an online education hub that provides a large number of features to support educational activities such as classes, activities, assignments, books, grades. At the time of COVID, it has made a lot of changes in our education system.

During this pandemic situation, both teachers and students have faced a lot of challenges in educational system but at that time LMS has always been there to make this difficult time easy for both. Teachers have made a lot of efforts for students in this tough time to provide all necessary contents such as books, notes, ppts etc. It has become the main source for every work whether it is classes or the content of those classes is available only on LMS. It also provides recording of classes as well as assignments and activities. It has provided ease to the students so that they can understand the topic once again by watching its recording or content which they have not understood at once. Laboratory experiments have also been performed online, whose information is also obtained from here so that students will not miss their practical works. Teachers have made a lot of efforts to find all these necessary contents for students and it is the responsibility of students to take full use of it and make their study better in this online system also.

The screenshot shows the homepage of the ITM Institute of Technology & Management Virtual Campus. The top navigation bar includes the institution's logo, a user profile, and a search bar. Below the header, a banner for an 'alumni interaction' event is displayed, featuring a date (April 04, 02 PM), venue (Kautilya Block, ITM, Sitholi Campus, Gwalior, M.P.), and a photo of a person. To the left of the banner, text highlights the 'Importance of Co-Curricular Activity in the Overall Development of Students'. On the right side of the banner, there are sections for 'CENTRAL LIBRARY', 'TAP CELL', 'CONFERENCE & SEMINARS', 'WORKSHOPS & CERTIFICATE COURSES', 'CO-CURRICULAR & EXTRA CURRICULAR ACTIVITIES', and 'IDEAPAD (INCUBATOR)'. The bottom of the page features a circular logo for '25th ANNIVERSARY CELEBRATION' and contact information for Mr. Ankur Patel.

Atmanirbhar Bharat Abhiyaan

Jayesh Bhagat

ME, VI Sem, ITM

Atmanirbhar Bharat Abhiyaan is the mission started by the Government of India on 13th May 2020, towards making India Self-reliant. The Hon'ble Prime Minister, Shri Narendra Modi announced an economic package of INR 20 lakh crores, equivalent to 10% of India's GDP to fight COVID-19 pandemic in India. The Finance Minister, Smt. Nirmala Sitaraman announced the details of the measures provided under the Atmanirbhar Bharat Abhiyaan through five press conferences. These measures are provided to different sectors and areas to cover and help everyone affected by the pandemic. The measures were announced keeping in mind the five pillars of Atmanirbhar Bharat Abhiyaan.

The five pillars of Atmanirbhar Bharat Abhiyaan

1. Economy - That brings quantum jump rather than incremental change.
2. Infrastructure - To become the identity of modern India.
3. Systems - Technology-driven systems
4. Demography - India's strength is its demography, and it is the source of energy for self-reliant India.
5. Demand - Full utilisation of the power of demand & supply

Schemes launched under Atmanirbhar Bharat Abhiyaan

1. Agriculture Infrastructure Fund project - Financing facility of Rs. 1,00,000 crore will be provided for funding Agriculture Infrastructure Projects at farm-gate
2. Animal Husbandry Infrastructure Development Fund - Aim to support private investment in Dairy Processing, value addition and cattle feed infrastructure. An Animal Husbandry Infrastructure Development Fund of Rs. 15,000 crore will be set up.
3. Pradhan Mantri Matsya Sampada Yojana - For integrated, sustainable, inclusive development of marine and inland fisheries. Cage Culture, Seaweed farming, Ornamental Fisheries as well as New Fishing Vessels, Traceability, Laboratory Network etc. will be key activities. Employment to over 55 lakh persons.
4. Technology Development Fund Scheme - The Scheme encourages participation of public/private industries, especially MSMEs and start-ups, so as to create an ecosystem for enhancing cutting edge technology capability in the defence sector. The scheme will be limited to development of technologies or prototypes of products having potential use for National Defence.
5. Defence production & export promotion policy - To make India amongst the leading countries of the world in Defence sector, including Aerospace and Naval Shipbuilding sectors, from design to production, with active participation of public and private sector.
6. Pradhan Mantri Garib Kalyan Yojana - Rs. 1.70 Lakh Crore relief package under (PMGKY) for the poor to help them fight the battle against Corona Virus. Insurance cover of Rs 50 Lakh per health worker. 80 crore poor people given benefit of 5 kg wheat or rice per person, 1 kg pulses for each household for 3 months.
Front-loaded Rs 2,000 paid to farmers under existing PM-KISAN to benefit 8.7 crore farmers. Building and Construction Workers Welfare Fund allowed to be used to provide relief to workers.
7. Incentive Scheme for Promoting Domestic Manufacturing of Medical Devices - The Scheme proposes a financial incentive to boost domestic manufacturing and attract large investments in the Medical Device Sector.

Demand Club: FIR

Ankit Shrivastava, ME, VI Sem, ITM

No shock to hear FIR as a PIL in any police station but it is a summation of three industries that is FMCG (F), Information technology (I) and real estate sector (R) Standing as a demand club of FIR. So the puzzle is solved that FIR simply abbreviates the club of these 3 sector's demand which has really emerged as a boon to the Indian economy. Infact several industrial reports state that aa the FMCG sector will thrive at a CAGR of 27.86% whereas Real estate sector to hike by 28% GIT to stand at 19.93% approx. which clearly indicates FIR to surprise the future of India in the eyes of rest of the world. Indian Economy, being a part of BRICKS and G20 and other global organization is a leading market for world class companies to invest here in the form of FDI to dugout capital formation and enhance standard of living of people As covid19 introduce a new frangled work from home culture the demand for these industrial outputs has reached to the peak in the last 2 years and future also it will long last. FIR is a new dimension of success of our economy demanding highly trained professionals, up-to-date work technology and a furnished work space hence clubs the demand. Households and companies are expanding their pockets to go through with this latest demand trend. Thus it can inferred to notify the upcoming demand and development cycle in the form of FIR.

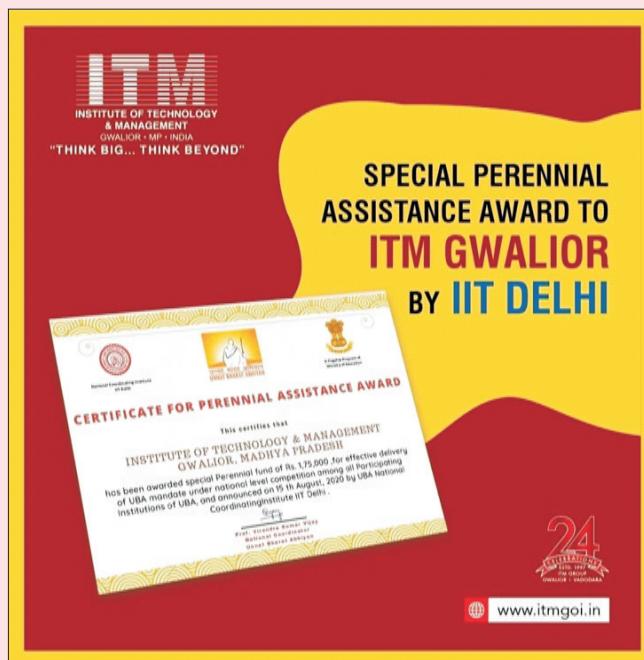

*CAGR- Compounded Annual Growth Rate.

*FDI- Foreign Direct Investment.

FMCG- Fast Moving Consumer Goods.

Students of ITM College planted saplings on World Environment Day

Republic Day Celebrations at ITM!

On the occasion of the 72nd Republic Day, flag hoisting ceremony was held at NAAD Amphitheatre on 26th January 2021. The program started with hoisting the tricolored flag of our country along with the NCC Salute. Following this, The Chief Guest of the event Professor (Dr) Santosh Narayan khedkar, Pro Vice Chancellor, ITM University Gwalior, addressed everyone and motivated the young generation to work hard towards their goals. Music, songs, dances, and presentations were also made by the students as the celebrations continued. Student Ashwini performed a classical dance, Payal performed 'Desh Mera Rangeela', Pallavi performed 'Teri Mitti Mein Mil Jawaan', Vaishnavi sang the old classic, 'Ae Watan mere aabdarahetu' and Ishani Banerjee performed 'Ye jo desh hai mera Swadesh haimera'. At the same time, Student Aftab in his speech made special statements reminding us about the importance of our Constitution and the true value of the freedom fighters who sacrificed their lives in liberating India.

Online Workshop on 'Power of Yoga'

As the conditions in India begin to worsen up in Summer, it was of utmost importance for us to build up our immunity to fight Covid-19. For this purpose, ITM organized an online workshop on the topic 'Power of Yoga' by Dr Kapil Dave. The workshop introduced the participants to various benefits and advantages of practising Yoga on a daily basis. Some of the major benefits include improved body efficiency, balanced hormones, boost energy, boost immunity etc. The workshop was conducted on 29th, 30th April and 1st May

PEDAGOGICAL CHANGES IN THE INSTITUTE DURING PANDEMIC

Switchover from offline to online classes via LMS Platform during the COVID -19 Pandemic

LMS occupies a place of pride in ITM Gwalior and is an essential component of the Institute's outstanding research and education mission. It serves as a creative and innovative partner in supporting teaching, learning, and research activities of the Institute.

Importance of LMS Software during Covid-19 Pandemic

The world plunges into uncertain times as the COVID-19 virus continues to pose as a threat to everyone. Schools across the globe have closed down temporarily to protect students, teachers, and staff from possible infection. In fact, a study by UNESCO says that almost 1.2 billion of students in 143 countries are affected by the pandemic.

But thanks to the rise of online learning during COVID-19 pandemic, students can carry on with their education. Schools, colleges, and universities are shifting away from the four-walls of their classrooms and are taking advantage of the digital space. A recent study shows that educational institutions are willing to invest up to \$350 billion on education technology by 2025. This includes tools like video conferencing, virtual tutoring, and, most importantly, learning management systems (LMS).

A Learning Management System (LMS) is an online system or software which is used to plan, execute, and assess a specific learning process. In simple words, software used in eLearning programs and which helps in administration, documentation, tracking, and recording. Learning Management Systems are used to maintain online collaboration over the internet. Colleges and companies use them to deliver online training; corporates use them for training purposes, as well as for maintaining employee records. Some use them to offer courses that provide students access to education, and some others as an online system which staff use to support course delivery and provide online learning and blended learning opportunities for students and employees.

Objective- The main objective of Learning Management Systems is to enhance the learning process. A Learning Management System not only delivers content, but also handles registering courses, course administration, skill gap analysis, tracking, and reporting. Most LMSs are web based and are used in various educational institutes and companies to improve classroom teaching, learning methodology, and company records. They are used in various industries and scenarios like in financial services, compliance training, computer-based training, online assessment, collaborative learning, application sharing, and so on. Some LMSs also include a performance management system which encompasses employee appraisal, competency management, and skill gap analysis.

Benefits of Learning Management Systems

1. Stream lined training process- Using a Learning Management System makes things easier for you, as it helps plan

the training activities calendar which you can share with your learners, trainer, and co-administrators. By doing this you can maintain and improve your training process. An LMS also helps in getting trainer reports, which is a time consuming process when done manually.

2. Ability to deliver engaging and motivating training- This is a fact that each individual learns in a unique manner. If you apply different learning approaches, they increase your success rate. LMSs help in communication and balance the whole system.

3. Technology leverage- In this digital world the working system has totally changed. Today every employee is engaged with a laptop or desktop, and with the help of Learning Management Systems you make the training future ready; plus it becomes interesting and exciting for your target audience.

4. Centralized learning- It becomes easy to offer centralized source of learning to multiple users and the training, performance, and content can be accessed from the same source.

5. Tracking and reporting features- Another benefit of using an LMS is that you can enhance performance through tracking and reporting tools. New users' progress can be tracked, records can be reviewed, and users can register for more than one course. Learning can be done through web based training. Management can access the records and calculate which area needs improvement. The learners also become aware of the areas that need improvement and additional efforts, as the weak performance areas, can be identified easily.

6. Evaluation capabilities- Users can evaluate courses before joining, and employers can keep a track of the retention levels and real time performance by periodically scheduling assignments.

7. Easy upgrades- Content and information can be easily upgraded, as Learning Management Systems offer a centralized location for information which makes it simple to implement changes; plus, all users get the same upgraded information at the same time.

8. Simplified learning process- An LMS refines the learning process. The systems are easy to use and a new user can figure out everything very easily, since help is built into the system.

9. Reduced cost and time saved- The right LMS can reduce the training costs in multiple ways as the trainer doesn't need to travel now, so there are no boarding and lodging charges involved. The teaching cost reduces to great extent. Learning Management Systems save organizations and instructors' valuable time and money through web-based training.

10. Interactive environment- Through new online tools, the interaction and communication part improves. Learners get the answers in real time and the engagement is more geared toward being interactive.

11. Anytime, anywhere learning- Centralized uploading and online access ensures this. You can learn whenever and wherever you want to.

Learning Management System Features

1. Managing users, courses, roles, and generating reports.
2. Making a course calendar
3. Messaging and notifications
4. Assessments that can handle pre/post testing
5. Certification and display employees' score and transcripts
6. Instructor-led course management
7. Administration
8. Competency management

The screenshot displays a LMS interface with the following sections:

- Course Overview:** Shows course details like Semester II, Faculty, and Course Name: CS-V10 (B1+B2+B3). It also includes a "Customise This Page" button.
- Private Files:** Displays a message stating "No files available" and a "Manage private files" link.
- Latest Badges:** States "Badges are not enabled on this page".
- Calendar:** A section for viewing the academic calendar.

Logos for ITM Institute of Technology & Management and the Ministry of Virtual Campus are visible at the top of the page.

Circuit Life - Department Activities

Academic Achievements

- Faculty Retention > 75%
- Class attendance of students - close to 85%
- More than 50 GATE-Qualified Students

Training and Placement

Training of students from various disciplines have been done by technical experts of reputed companies such as:

- HPES
- Multi-soft
- ATS Infotech
- Illuminate Mind
- DreamUni
- Sofcon
- Aspiring Mind
- CETPA

Placement

Some of the reputed Recruiting Companies are:

- Cognizant
- Infosys
- Wipro
- IBM
- Igate
- Amdocs
- Persistent
- Mphasis
- Aon Hewitt
- ESS Pvt. Ltd
- FeDex
- IDPL
- Innoeye
- ICS (Off Campus)
- Thycare
- Hettich
- Era Group
- Around 30 reputed Companies have visited the campus so far for placement and some more good companies are in row
- Around 78% out of eligible appeared students have already been placed in good companies with handsome package so far and for others the process is continuing

Mechanical Engineering

Vision

To impart quality education in mechanical engineering to serve the changing needs of industry and society.

Mission

To impart quality education in the field of Mechanical Engineering by promoting values in students which will stimulate them to serve the needs of the industry and society by aiding in its overall progress and development by keeping dynamic equilibrium with its social, ecological and economic environment.

Civil Engineering

Vision

To be a center of excellence in the field of Civil Engineering for a constantly changing societal needs and challenges by imparting quality education and allied research.

Mission

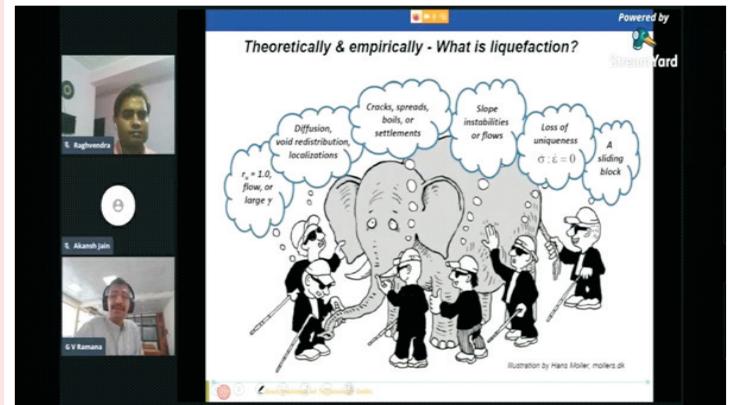

- To offer the world class teaching, training and resources in Civil Engineering to the young minds of the nation.
- To produce technically sound Civil Engineering graduates to serve the nation.
- To produce Civil Engineers who are ethically and morally responsible towards the society and nation.

Department of Civil Engineering Organized a 3 Day Webinar series on “ Seismic Hazard and Mitigation” organized on 23rd July 2020 to 25th July 2020. Speakers Dr. G. V. Ramana, Professor Department of Civil Engineering, (IIT Delhi) and Dr. Romanbabu M. Oinam, Assistant Professor Department of Civil Engineering (IIT Tirupati), Dr. Ramanathan Ayothiraman, Professor Department of Civil Engineering, (IIT Delhi), Coordinator: Mr. Akansh Jain, Mr. Ravi Pratap Singh Jadon, Convener: Dr. Raghvendra Sahu.

Department of Civil Engineering Railway Station visited at Construction site in DB City. A Group of 36 Students of 2017-21 Batch has visited construction site in DB city.

Department of Civil Engineering Railway Station visited of 2018-22 Batch in December 2020. A Group of 36 Students has visited railway station Sithouli and rail spring factory. Co-ordinator: Ms. Mansi Jain and Mr. Akansh Jain Convener: Dr. Raghvendra Sahu.

Department of Civil Engineering Railway Station visited at ISRO in Trivandrum (Kerala). A Group of 42 Students have Visited ISRO research center in Trivandrum. In these 7 days of visit students of CE has visited Construction of Dam in Allepay, ISRO in Trivandrum and Natural habitats in Munnar. Co Ordinator: Mr. Akansh Jain and Ms. Mansi Jain

Training of 'Revit Software' provided at ITM Gwalior.

Revit Software Training workshop was conducted at ITM Gwalior. To prepare the students through Industrial Training, this workshop was conducted by the Civil Engineering Department and The Training and Placement Cell. The Industries currently are linked with modern technology and all the software used in civil engineering at the institution level are taught such as AutoCAD, Graphics, etc. This training, however, prepares the engineers for tackling much deeper challenges of the Industry. Head of Department, Akansh Jain and Officer of Training and Placement Cell Arpit Singh Chauhan coordinated the training. Under this, students learned about the basic structure of any building. Along with this, planning was also taught according to Vastu Shastra. This software is very important for civil engineers in order to get good employment opportunities in the future.

Computer Science Engineering

Vision

The department envisions to nurture students to become technologically proficient, research competent and socially accountable for the welfare of the society.

Mission

- To provide high quality education through an effective teaching-learning process emphasizing active participation of students.
- To build scientifically strong engineers to cater to the needs of industry, higher studies, research and startups.
- To awaken young minds, ingrained with professional and behavioural ethics for the betterment of the society.
- Department of Computer Science organized a 3-day Workshop on Data analysis & visualization using pandas plotly & sea born in python. Speaker: Dr. Jitendra Singh Kushwaha, Associate Professor, Department of Computer Science, Institute technology and management, Gwalior from 16 – 18 July, 2020 via LMS Software.

• Department of Computer Science organized a One-day Workshop on Mean Stack Development Resource Person: Mr. Vilekhada Wadkar, Universal Informatics Pvt. Ltd Indore (MP), and Coordinate person Mrs. Archana Tomar and Mrs. Priusha Narwaria, Assistant Professor Department of Computer Science, Institute technology and management Gwalior, Gwalior on Dated 6th Nov, 2020 via Online Mode through ZOOM App.

• Department of Computer Science organized a One-day webinar on ata Analytics and Machine Learning esource Person: Dr. Sanjeev Sharma, Director SOIT, RGPV, Bhopal (MP), Coordinate person Mrs. Neelam Joshi, Assistant Professor, Department of Computer Science, ITM, Gwalior on Dated 31st Oct, 2020 via Online Mode through ZOOM App.

An advertisement for an online workshop titled "ONLINE WORKSHOP ON DATA ANALYSIS & VISUALIZATION USING PANDAS, PLOTLY & SEABORN IN PYTHON". The workshop is organized by CSI Gwalior Chapter (Region-3) in association with ITM Group of Institutions and The Institution of Engineers (India). It is scheduled for 16-18 July, 2020, from 7-9 PM. The speaker is Dr. Jitendra Singh Kushwaha, an Associate Professor at ITM Group of Institutions, Gwalior, MP, India. The topics covered include Basics of Python, Concept of Data Frame & its operations, Data Analysis using Pandas, Data Visualization using Matplotlib, Seaborn, Plotly, and more. Registration fees are Rs. 150 per participant (including study material). Payment can be made via online payment or using Scan QR code. An e-certificate will be provided to all participants. The contact number is +91 9425109013, and the email is csl.workshop.gwalior@gmail.com. The website is www.itmgoi.in.

An interaction session was held with students of pre final year and briefs them about upcoming companies and their test patterns.

TAP cell officials interacted with students and took feedback about ongoing training activities.

Experts from SSDN technologies took session with students and gave training on IOT.

SSDN Technologies completed technical training for students of 2018 - 2022 batch students.

Technical training on Cloud computing was held for the students of 2016-20 batch students.

Technical training for Python was delivered by Mr. Amit from SSDN technologies to students of 2018-22 batches.

Electronics and Communication Engineering

Vision

The Electronics and Communication Engineering department envisions to prepare world-class technocrats and entrepreneurs with fresh ideas and innovations to meet the demands of industrial development and social commitment.

Mission

- Prepare students to solve real world problems through research and develop their entrepreneurship skills.
- To provide high quality education with effective teaching pedagogy.

MBA

Vision

The department envisions to flourish analytical, managerial, entrepreneurial attitude besides inculcating ethical values for the holistic development of learners to create positive societal change.

Mission

- To cultivate a learning environment suitable for the creation and dissemination of management knowledge.
- To develop innovative and dynamic business leaders who add value to society and nation-building.
- To develop industry-academia interaction in a collaborative manner which provides industrial exposure and experiential learning.
- Program Educational Objectives Statements
- To equip the students with KSA (Knowledge- Skill – Ability) to sharpen and prepare them to face challenges through effective decision making, analytical and critical thinking to excel in career.
- To develop comprehensive knowledge of the business activities and harvest creativity and innovation among students.

Department of Management Organized a Webinar on "The challenging role of entrepreneur in current scenario" organized on 29th Sept 2020. Resource person Mr. Nitin Vatwani, Senior Manager, Bank of India Coordinator: Dr. Ankit Gupta, Dr. Prashant Sharma

Convener: Dr. Preeti Singh.

Women Empowerment Cell

WEC celebrated the 'HAPPY PERIODS DAY', to create awareness amongst the society and push the stigma away. Dr. Swati Agrawal, renowned gynecologist and Obstetrician of Gwalior was the Key speaker on the occasion. She made the girl students aware that how the changing life style is affecting the health of our young females and are becoming anemic. PAD Women Foundation, President Mrs. Kiran Bajpai also graced the program along with her team. They are playing a vital role in Bringing awareness amongst the village women about using safe and hygienic protections during periods.

खबालियर ◆ पीरियडस के टाइम में होने वाले दर्द को नजरअंदाज न करें। यदि ये हर बार होता है और असहनीय रहता है। इसका मतलब ये एंडोमेंट्रिओसिस बीमारी भी हो सकती है। इसमें आपको अत्यधिक ब्लॉडिंग भी हो सकती है और यह इफ टिलियर का बेहद प्रमुख कारण है। आजकल युवतियों में ये बीमारी ज्यादा देखने को मिल रही है। वहाँ जिन महिलाओं का मीनार्पोज हो चुका है और

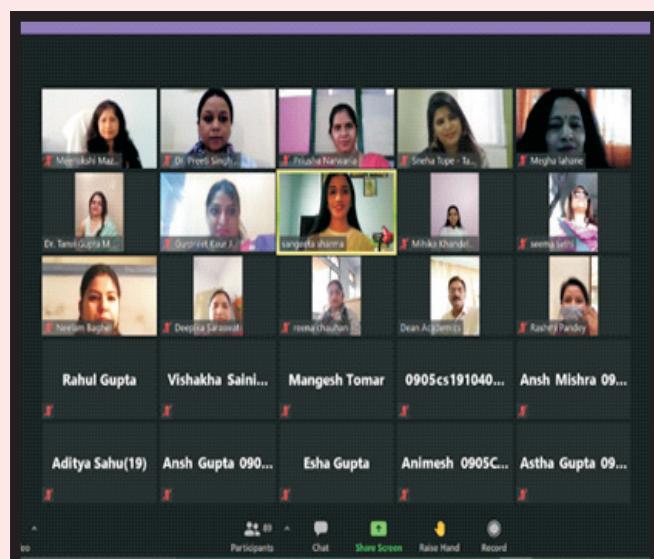

से पता चलता है। कुछ ऐसी ही जानकारियां दे रही थीं गैनिकोलोजिस्ट डॉ स्वाति अग्रवाल। वे आइटीएम ग्रुप ऑफ इंस्टीट्यूशंस की बुमन एम्पवर्मेंट सेल व पैडवुपन फाउंडेशन द्वारा आयोजित हैप्पी पीरियडस डे पर कार्यक्रम आयोजित किया गया।

पैड वुपन फाउंडेशन की प्रमुख किरण वाजपेयी ने कहा कि हम ज्यादा से ज्यादा गांवों से जुड़कर वहाँ की महिलाओं में पैडस का उपयोग करने की जागरूकता लाने के मिशन पर काम कर रहे हैं।

WEC, ITM organized an Expert Lecture on 'Women Rights' by Ms. Anuradha Singh (Govt. Advocate M.P High Court). About 250 students attended the program in presence of the faculty members of ITM. Ms. Anuradha Singh spoke on the rights given to women under Indian Constitution. Also asked the females to raise their voice against the exploitation of female gender.

ITM Alumni Relations Cell

The Alumni Relations Cell provides a liaison and strong bridge between the alumni of ITM Gwalior, Alumni Association Board, and its trustees, administration, staff, faculty, students, and friends for joint profit and synergy.

ITM Alumni Association-

Purpose:

The Purpose of the ITM Alumni Association is to communicate the vision and mission of ITM to the alumni. The Association may proactively strive to create an environment embodying communication with and participation by the Alumni Association and friends to foster strong loyalty and growth of the institute.

Members of the Association extend an invitation to alumnae by sharing the values and support, competence and strengths of one another in order to provide direction to move the organization forward, and to provide support for the institution.

Vision:

Our vision is to involve and encourage alumni to participate actively in the ITM Gwalior, to attend events, to volunteer, to create new ways for alumni to stay connected to ITM and enhance greatest possible number of alumni and alumnae with ITM Gwalior and to contribute to the greatness of their alma-mater.

Mission:

The mission of ITM Alumni Relations Cell and the ITM Alumni Association is to cultivate Lehigh loyalty through meaningful relationships in support of ITM's Vision and create a lifelong and worldwide community of alumni through increased opportunities for meaningful engagement in order to increase awareness, pride, participation, volunteer involvement, and philanthropic commitment to ITM Gwalior.

Aims and Objectives of ITM Alumni Association—

- 1) To act as two-way communication link between the alumnae and students in order to strengthen connections and encourage involvement with the ITM Gwalior.
- 2) To develop a platform for interaction between alumni, present students, faculty, and administration of ITM Gwalior.
- 3) To develop alumni-students' interactions and programs that foster relationship among alumni and students to encourage the physical, moral, spiritual growth and highlight their achievements.
- 4) To improve and assist the ITM in the growth of its academic, administrative, cultural, extracurricular activities and continue the process of life-long learning with the help of active participation of the alumni.
- 5) To build strong and mutually beneficial ties between the ITM and its diverse alumni, promote goodwill in the community and create a dynamic alumni mentorship program, alumnae networks that will stimulate interest, build loyalty, increase involvement and generate support for the institute.
- 6) To develop and foster a mutually beneficial relationship between the ITM Gwalior and its alumni. We will accomplish this by providing educational opportunities, social programs, services, and benefits to meet the diverse interests of the institute and the membership.
- 7) To provide a forum for the Alumni to swap ideas on academic, cultural and social difficulties by building and coordinating events.
- 8) To estimate the expertise and practice board of the alumni association to set the strategic board and administrative body to leading research and entrepreneurial ventures by alumni association that will concentrate on Academic Improvement, Student Advancement, Alumni Enrichment, and Community Relations.

- 9) The association will proactively strive to create an environment embodying communication with and participation by ITM Alumni Association and friends to foster strong loyalty to the institute and growth of the association.

- 10) **To carry out the following-**

- Function as visiting / guest faculty for the students and faculty.
- Help students in their industry internships and company placements.
- Lead mock discussions and conferences and mentoring programs for the students before their internships and placements.
- Conduct gatherings and expert talks by entrepreneurs' personnel to approach students for their professional learning and occupation.
- Act as experts for any cultural / technical events organized by the Alma Mater.
- To conduct tech-fests, seminars, webinars and workshop for the students.
- To guide and support students to work on live case studies and with experienced advocates.
- Help students with developing relationship for professional and academic enrichment.
- Manage several clubs and social shows of informative significance for the advantage of the students.
- Organize technical and social meet for the students and members.
- To assist the Alma Mater in conducting online and offline test series / examinations.
- To accommodate institutional tours and visits authorization for the member.
- To maintain a web-site and e-portal of the alumnus.
- To maintain and update the data base of all the alumni of the institute and to interact with them.
- To involve the members in the overall development of the institute and the Society

- 11) **To provide following benefits to its members:-**

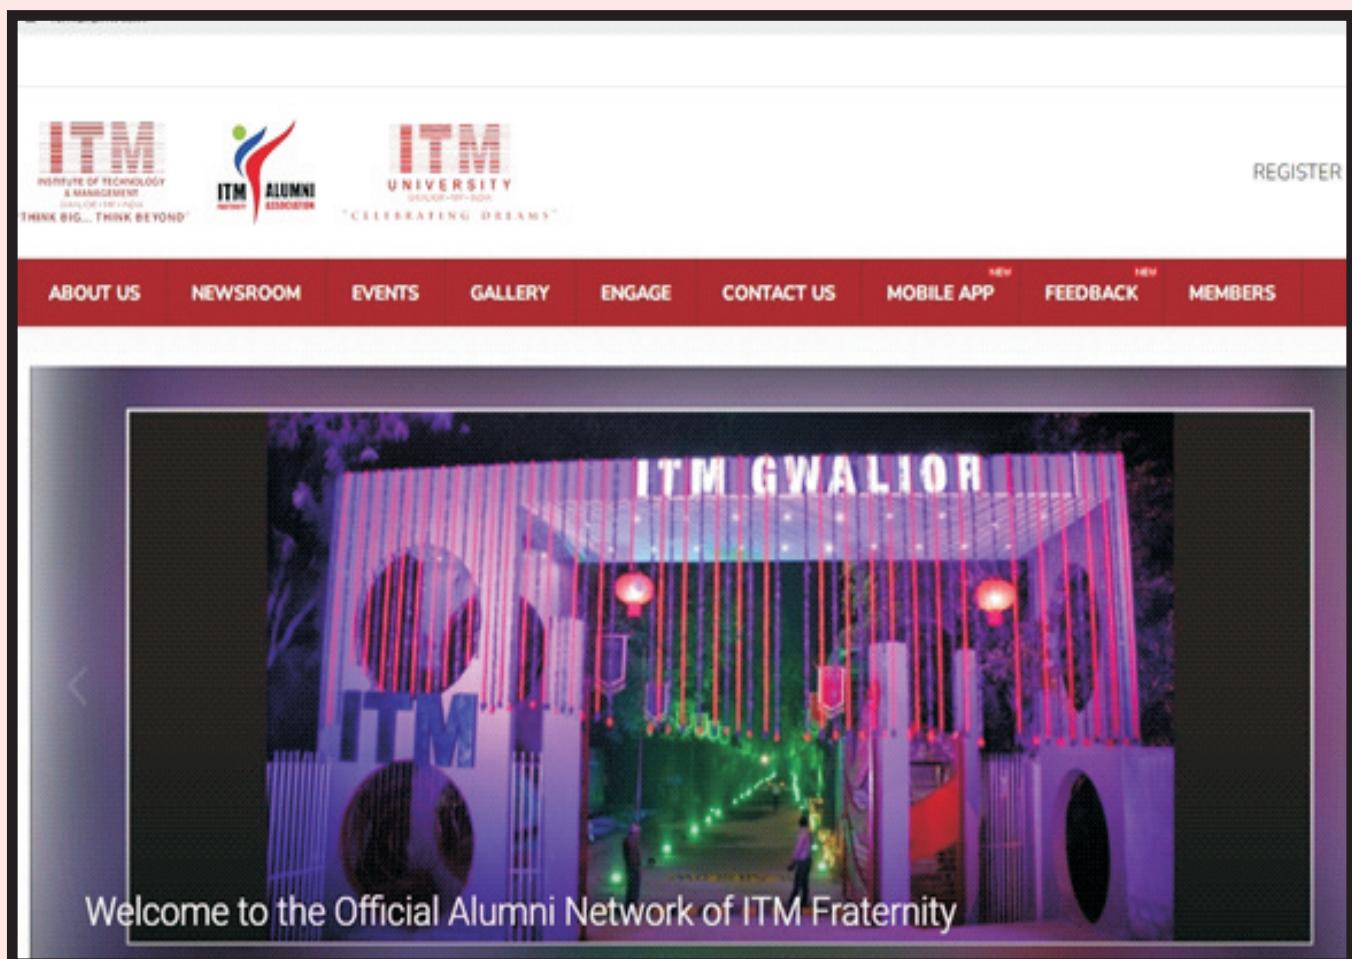

- Opportunity to use the library of the Alma Mater.
- Opportunity to participate in the academic and cultural events organized by the Alma Mater.
- Possibility to utilize the computer lab and Internet support of the Alma Mater.
- Opportunity to be part of the annual get-together followed by alumni meets.
- Give guidance for professional augmentation and career advancement.
- 12) To give Studentships, Awards, Financial assistance, books, and/or Stationery to the needy and deserving students, etc.
- 13) To provide remedial support to the needy students.
- 14) To celebrate all national traditional Occasions.
- 15) To shape and execute student welfare programs/activities to create self-reliance among the poor and the needy students.
- 16) To teach the society in social Duties and give the knowledge and understanding of various Social Services available to enable them to use.
- 17) To give career and vocational administration to students.
- 18) To offer guidance for professional and career development to the students.
- 19) To give relief assistance at the time of natural disasters and crises.
- 20) To award studentships, stipends, medical and other grants to pupils and deserving men and women and who study in school conducted by the society.
- 21) To encourage and assist the poor and other deserving people by giving food, shelter, periodical distribution of fabric, medicine, and financial assistance.

Specific initiative taking during pandemic COVID-19

During the pandemic critical time, Alumni mentorship Program played a vital role for the learning and moral boost up of our students, the ITM Alumni Mentorship Program enables alumni to share their professional and personal experience and expertise with current ITM students. The connections made in the program help prepare our students for a successful future, navigate uncertainty, and leave a lasting impact on our campus community.

As an alumni mentor, alumni will have the opportunity to provide student(s) academic guidance as well as career and personal development advice. Your insights on managing change and overcoming difficulty can have a deep and profound impact, particularly during this difficult time. We encourage mentors and students to connect on a regular basis (e.g., once-a-month phone call, in-person meeting when safe, or email conversation); however, the frequency and form of communication are things you can determine together.

With students in remote learning for the time being, our alumni are even more crucial to our students' success. Their mentorship can help a student create a game plan for the year ahead and even begin to build their network. Mentorship can also help students to move through their career discovery process without being on campus. Whether you are right down the street or across the globe, we invite alumni from around the world to be part of the ITM Alumni Mentorship Program.

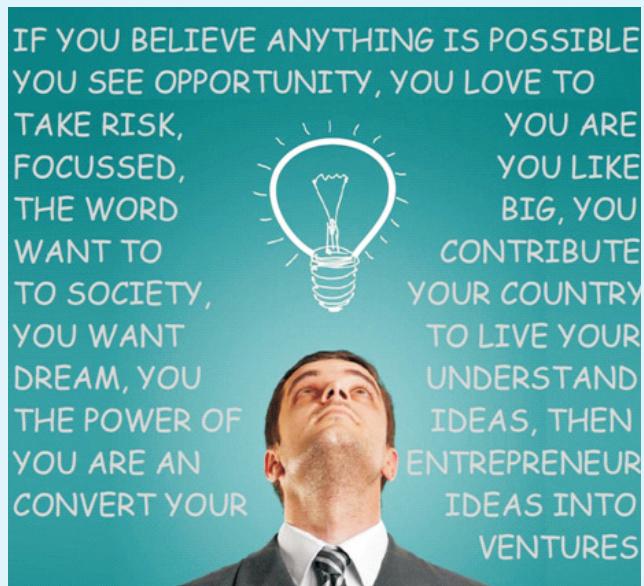

Beyond Classroom

IDEAPAD

IDEAPAD is the business incubator in ITM campuses. It is envisioned that if various streams of ITM group and students concentrate on solving issues related to the region, their communities, the success of these experiments can be scaled commercially into an enterprise. There are 7,000 incubators of different kinds around the globe. They create jobs, grow companies and help technologies evolve. IDEAPAD is being evolved around resources available in the ITM Group and will ensure their optimum utilization.

- The Ideapad Incubation Centre of ITM Gwalior conducted an 'Idea Competition' to fuel and motivate all the entrepreneurs among us. The opportunity through this competition is that students can compete to get their ideas noticed and seed-funded by ITM Gwalior itself.

- The Ideapad Incubation Centre of ITM Gwalior conducted an 'Idea Competition' to fuel and motivate all the entrepreneurs among us. The opportunity through this competition is that students can compete to get their ideas noticed and seed-funded by ITM Gwalior itself.

Muskaan

Muskaan is a youth driven non- profit organization working to ensure educational, emotional and financial support to the children living in slums and orphanages. Muskaan registered as a non – profit in 2014, Muskaan reaches out to over 300+ children in 5 centres across 3 cities (Gwalior – Bhopal - Indore) in India, through a highly efficient 200+ strong volunteer's network. Volunteers commit a year and spend time between 3 to 5 hours every week mentoring, teaching and interacting with these children in order to ensure they get the support and care they need during childhood. Muskaan provides English support (Reading-writing-grammar) to children at least 4 days in a week after school hours of children.

A Wish is a youth organization co-founded by college students Shivani Dixit, Monika Sharma and Mohd. Hamza in December 2020. It is working in the areas of women & child development and awareness.
